In an effort to help streamline our workflow, The Capstone Team requires an approval on the submitted requirements available on Docupedia. Before signing, please review the requirements and make note of any changes that should be addressed before approval. Some notable factors to take into consideration before approving a design are as follows:

No.	Items
1.	Software Requirement Specifications
2.	Project Charter
3	Project Plan
4	Test Plan

After this document is signed any changes of the approved requirement need to raise change request and approval of change.
