

WEEKLY ACTIVITY REPORT

NAME: PHAM HUYNH TRI MINH

ROLE: TEAM MEMBER

DATE: NOVEMBER 20, 2017

WEEK: 5 (13-17/11/2017)

PRESENT ACTIVITY

| | |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| ACTIVITY SUBJECT: | Learn to use Visual Studio Team Services to manage the project |
| | Improve the knowledge of blockchain and update the voting process. |
| | Try to fix the proxy problem and run some example. |
| STATUS: | 30% - Can create a project but still confuse, too many function on this tool (manage the project and the source code) |
| | 100% - Understanding clearly about blockchain, create a voting process. |
| | 50% - Discuss with client about it, there are 2 solutions: using Mac or Lab at Bosch, will ask to use Lab. |
| RESULT: | https://rndblockchain.visualstudio.com/E-Voting%20Blockchain |
| | Process Picture and PowerPoint Presentation at Bosch, uploaded on Dropbox |
| | Client accept for using Lab but need more discuss. |
| HOURS: | 40 hours |
